

Accredited Investor Framework under SEBI (Portfolio Managers) Regulations, 2020

Background

The concept of class of investors (typically termed as accredited investors or qualified investors or professional investors) who have an understanding of various financial products and the risks-returns associated with them and are able to take informed decisions regarding their investments is recognized globally by many securities and financial market regulators.

Further, they are also considered to be capable of dealing in relatively riskier investment products due to their financial capacity and ability to absorb possible financial losses. The global regulators reckoned that these investors are sophisticated enough to not require extensive regulatory protection, and therefore, issuers of securities and providers of investment products/ services are offered a regulation-light regime, to offer their products/services to accredited investors.

Based on the above, it was envisaged by SEBI to introduce the concept of Accredited Investors in India with uniform eligibility criteria, accompanied by a flexible regulatory framework for the various securities market products and services may be beneficial to the development and growth of the Indian securities market.

Accordingly, SEBI (Portfolio Managers) Regulations, 2020 on August 03, 2021 and SEBI circular SEBI/HO/IMD/IMD-I/DF9/P/CIR/2021/620 dated August 26, 2021, introduced the concept of Accredited Investors and modalities for implementation of the framework for Accredited Investors.
